Lake County voters will have the opportunity this Saturday, Dec. 16, of electing candidates for the new Lake County Junior College Board of Directors.

Voting for Antioch area residents will take place in the Antioch Community High School. Polls will be open from 12 noon to 7 p.m.

The ballot is a long one with 41 candidates—seven to be selected, at least one from an unincorporated area.

The Antioch area has 6 men in the running: They are Thomas E. Smith, RFD 3, Antioch; M. David Cain, 333 Bayview Lane, McHenry (Grant Township). Mr. Cain's postoffice address is in Mc-

Henry, but he resides in Grant Township in Lake County. Dr. Roland Cooper, RFD 1, Antioch; Paul H. Wiese, Lake Villa; Leslie Gilmore, and Henry G. Schmidt, Jr., RFD 5, Antioch. Further information on these area men who are running for election may be found on another page.

Thugs Force Way Into Young Home

One man is under arrest and a second is sought after they allegedly forced their way at gunpoint into the home of Stephen Young, of Lake Marie last Thursday.

Young told authorities the pair knocked on his door about 3 a.m. and asked for his wife.

Mrs. Young, who works in an area restaurant, had previously told her husband that a man had come into the restaurant and tried to date her.

She had also told her husband the man threatened her and said he would kill her unless she complied, and that she had been followed home from the restaurant on several occasions.

One of the men, later identified as Buddy Kolinski, address unknown, pulled a gun from his pocket and demanded to be let into the home.

The other man pushed Kolinski's arm and Young managed to knock the gun from his hand.

The second man, later identified as John Cross of North Avenue, Antioch, finally managed to get the gun and would not give it back to Kolinski.

The men then forced their way into the home where Cross went into the kitchen and ransacked the room, tossing food and furniture around and smashing dishes.

Young said that it appeared to him that both men had been drinking heavily.

The two men finally left after striking Young in the face.

Antioch police meanwhile arrested Cross Monday and transferred him to the Lake County jail.

Kolinski, who disappeared, is driving an auto with North Carolina license plates. Antioch police have issued a charge of battery.

Mrs. Young collapsed on her job Monday and was rushed to St. Therese Hospital, Waukegan, where she was treated for nervous exhaustion.

Antioch Lions Donate Book Proceeds To Pool

The Antioch Lions Club has turned over to the Antioch Service Corp., operators of the pool at the Antioch Aqua Center, a check for \$2,282.25.

The money represents the proceeds from the sale of advertising in Antioch Diamond Jubilee book, sponsored by the Lions Club, during the celebration last August.

The money will be used by the corporation to offset expenses of the pool and to continue its operation.

The pool was the brainchild of the Antioch Lions Club some 11 years ago and the cost of constructing it was \$80,000.

Bonds were sold and at the present time Lions Club members have turned in

some \$15,000 of the bonds to the corporation as a donation for its continued use.

Included in the cost is the retirement of the bonds and the interest that has accumulated to the bondholders.

Huge Mastodon Bone On Public Display At Local State Bank

A huge Mastodon bone found in Industrial Acres, Antioch last September, by John Horak, is now on display for the first time to the public in the front foyer of the State Bank of Antioch. The foyer is open 24 hours a day, so anyone can walk in and look at it.

This Mastodon bone weighs 38½ lbs., is 36" long and has a circumference around the knuckle of 34" and a circumference around the center of 18".

According to Stephen Young of Lake Marie, whose hobby is archaeology, anthropology and paleontology, the mastodon evidently found this prehistoric creek-

site and became bogged down in the process of drinking. Because of its huge size, it could not free itself and died either from starvation or drowning.

Young identified the prehistoric bone after seeing it in September.

Young speculated that the bone through the years had

lost at least 50% of its weight and probably could have weighed in the neighborhood of 80 lbs.

The bone that is displayed is the right humerus or upper portion of the leg of a mastodon that roamed this area more than 12,000 years ago.

John Horak of HOD was digging a hole in the industrial area to bury garbage when he uncovered the bone. The full skeleton has never been uncovered. Mr. Young hopes to excavate this spring and attempt to recover the rest of the skeleton.

First of all, 12 feet of overburden will be removed by machine. Then the operation will be hand digging. Young estimates that the skeleton is approximately 15 ft. below the surface. The bone is somewhere between 6000 to 12,000 years old. The mastodon stood 12½ feet high from the ground to the top of his head and weighed in the neighborhood of 8 tons.

It is estimated that the tusk should measure 12 ft. in comparing it with the size of the bone found.

The discovery of this bone has created a lot of interest throughout the country from other archaeologists. This was the sixth find in Northern Illinois within the last 30 years.

The mastodon was strictly a vegetarian and the only animal known to attack them were the sabre tooth tigers. As far as is known, these tigers were not common to this area, but evidence has been found that they lived in the western part of the U. S.

According to the Sheriff's office report the Kibar car was northbound on Rt. 45. Mrs. Kibar stated that it was a straight portion of the road, and that she was not driving fast, when suddenly she was struck by something. The front end of the Kibar car was a total wreck.

For Those Who CARE

A single American farmer feeds and clothes nearly 40 of his countrymen, statistics show. In the underdeveloped countries, the average farmer barely feeds his own family.

Half of the people on earth will be hungry this Christmas while we shop for festive items for family and friends.

Most of us, it is reasonable to assume, are compassionate towards those who have less than we have.

This compassion can be directed in a good cause through a gift to CARE's Food Crusade.

Every dollar donated delivers a food package to some needy family in a far-off land in the name of the American people.

This is one way that we can help counter the growing cry of "Yankee Go Home" that is heard echoing throughout the underprivileged countries.

A total of 6,500,000 packages are needed to complete CARE programs that will help feed 37 million people in 32 countries during the coming year.

In villages from Latin America to Africa it brings home the fact that Americans care about what is happening to its friends and neighbors.

You can help this effort by sending your donation to CARE Food Crusade, 220 S. State Street, Chicago, Illinois, 60604.

Tavern Owners To Nominate Officers Today

Nomination of officers will be the main item on the agenda of the Tavern Owners Association of Lake County meeting at Bob's Place, Rollins Rd., Round Lake Beach, at 3 p.m. today (Thursday).

Present officers are Casimir (Ki) Serzynski, of Waukegan, president; Gil McCormack, of Lake Bluff, vice-president, and Al Skokie, North Chicago, secretary-treasurer.

Skokie, who has served as

an officer of the association for more than a decade, has indicated he will not be a candidate for re-election, but Serzynski and McCormack have made no announcement.

Election of officers will be held at the January meeting. Also on the agenda is a discussion of regulations of the Lake County Health Department by representatives of the agency.

A question and answer session will follow the discussion.

P.O. To Register Aliens In January

The nation's 32,000 post offices will participate in the registration of about 3½ million aliens next month.

Under the Immigration and Nationality Act of 1952, every post office is responsible for providing registration cards and turning the completed cards over to the Immigration and Naturalization Service.

The cards must be picked up personally by registrants and they may be handed in to the post office when completed or turned in directly to Immigration and Naturalization offices.

Post offices will accept the cards only until the end of January, the month in which the aliens are required to register. Those who have not registered by January 31 must go to Immigration and Naturalization offices to do so.

Cards and all materials needed by post offices in the registration are being mailed to the offices this month, but registrants may not obtain the cards until January.

Alien registrations have been increasing. In January, 1966, about 3.3 million aliens registered, and in January 1967, the total was about 3.4 million. Further increases are anticipated in 1968.

The Post Office Department is reimbursed for its role in the registration by the Immigration and Naturalization Service at about 9c for each registrant.

Aliens are not necessarily restricted to registration at their "home" post office. If away from home, they may register at a nearby post office.

Holiday Greetings

from one of those who was going to have everything done early. Every year there is a solemn vow made that next year will be different. Here it is the 14th of December and the cards aren't bought, let alone addressed, shopping only ¼ done, the rest is on paper and then there's the decorating and cleaning to be done, tree to be trimmed, and that aroma of cookies is certainly not in my kitchen yet! Somehow one always manages to be done and can console herself by saying, "Now next year it's going to be different."

Parties, Parties Everywhere!

Last week it was the Ted Larsons' Christmas party, this week it was Ray and Pat Lorentz' turn. With many guests too numerous to mention, but I must comment on their imported French maid serving the hors d'oeuvres. She had the Playboy Bunnies beat by a mile!

Accident on Rt. 83 Puts Harry Schwartz In Victory Memorial

Harry Schwartz, 62, of Box 61, Lake Villa, was taken to Victory Memorial Hospital Monday afternoon by the Antioch Rescue Squad as a result of a two car accident on Rt. 83 just south of Antioch, near Floral Acres.

Mr. Schwartz was traveling north on Rt. 83 with his dog, in a Volkswagen, and was unable to remember what happened, due to injuries received.

According to the sheriff's office report, Gary Lang, 18, a sophomore at Antioch High School, a resident of rural Antioch, was traveling south with his mother, Mrs. Laura Jean Lang, on Rt. 83, when a truck made a left turn in front of him. He jammed on his brakes to avoid the truck and skidded into the northbound lane of traffic and struck the Schwartz car. The Schwartz car rolled over in the ditch.

A witness, Mr. Bruno Bykowski of Crooked Lake, Lake Villa, told the sheriff that he was southbound on Rt. 83 and was behind the Lang car when it swerved into the northbound lane of traffic and struck the Schwartz car. Bykowski stated that he did not see a truck turn in front of the Lang car. The Schwartz dog was placed in the Antioch dog pound.

The Langs were apparently not injured in the accident.

Board. In addition, the objectives of the Junior College Act coincide with my own philosophy of the function of a Junior College and I wish to do whatever I can to support the objectives of the Illinois Board of Higher Education in fostering the Junior College Movement."

Educational Philosophy
I believe the basic objective of education is to turn out a well-rounded individual i.e. one who has not only the technical training necessary to his occupation but also a liberal education which will permit him to discover new approaches to his work and help him to discover meanings for his life. The educated person should have the basic tools necessary to evaluate situations and problems in his work and daily living so that he can govern his own actions toward these situations in a manner consistent with his basic philosophy.

With this basic objective in mind I can elaborate this philosophy as it would apply to the Lake County Junior College. In my view the Junior College should be:

1. **Available**—By available I mean it should be open to all who wish to attend; it should be available at low cost; it should be readily accessible in location to the majority of its service area.

2. **Complete and Comprehensive**—By complete and comprehensive I mean that it should provide a wide range of courses in its curriculum which will:

a. Meet the need for a liberal education mentioned above.

b. Meet the need for technical skills necessary to an occupation.

c. Provide continuing education to adults.

d. Provide courses to meet the philosophical and spiritual needs of man.

3. **Free**—By free I mean academic freedom in a somewhat restricted sense. I feel that the faculty and students have the privilege of exploring all the various concepts and beliefs available to them. However, I would limit this freedom in one respect.

I do not believe that exploration of these concepts should give the teacher the right to advocate actively concepts which are generally considered to be against public policy. By freedom I also mean the right of the faculty and students to not have their own freedom restricted by the demonstrations and actions of others who believe to the contrary. In other words, ideas can be exchanged freely but actions which restrict the freedom of others and are "against public policy" would not be tolerated.

4. **Locally Controlled**—By locally controlled I believe that the curriculum, finance, and administration of the District should be under local control so that the people can provide the type of Junior College which best meets the needs of the district being served.

Some of the philosophy expressed above is included in the Junior College Act. Other ideas have been included as expansions of the statute. In accordance with the question asked, I have addressed myself to the subject without regard to the act so that my philosophy would not simply reflect the provisions of the act.

Most Important Tasks to Confront the New Board are listed in what I consider the order of importance.

1. Establishment of an Educational Philosophy and objective for the district

2. Selection of Administrator

3. Establishment of curriculum consistent with district objectives

4. Obtaining staff and making arrangements to operate as soon as possible (probably in rented quarters).

5. Establishment of a long range plan.

6. Selection of site consistent with long range plan.

Henry J. Schmidt, Jr., 31, of Rt. L, Antioch, decided to be a candidate for the Lake County Junior College Board because he feels strongly that a centrally located junior college with a very broad curriculum may well be the most important educational advancement in our county in years.

He feels as a parent, teacher and taxpayer of Lake County that he should make

an effort to take an active part in the junior college.

Schmidt is a teacher at the Lake Villa Elementary School. He lives in the Lake Catherine area with his wife Martha and their three children, Henry, 5; Anne, 3; and Eddie, 6.

His B.A. degree was earned at Monmouth College, and he earned additional credits at Carthage College and the University of Maryland.

Schmidt is a member of the Antioch Methodist Church, the Illinois Education Association, the National Education Association and the Lake Villa Teachers Association.

Leslie Gilmore, 41, of Rte. 1, Antioch, is a candidate for the Board of Directors of the new Lake County Junior College.

Gilmore, a teacher at Big Hollow School, received his Bachelor of Science in Business Administration from the University of Dubuque. He also has 45 graduate hours in school administration from Northern Illinois and Roosevelt Universities.

Gilmore stated, "My primary reason for running for the board should be evident in my qualifications—the advancement of education in Lake County."

"My conclusions, based on eight years as a superintendent and three years as a teacher, are that we have not done enough for the extremes of the educational ladder. These extremes being the children that should go on to a more formal education than the four year high school program offers and those that should go on to more formal education, but should be further educated to properly assume their active role in society."

"To do this, we must strive to achieve a concentric attitude that the obligation of our educational system is to educate every individual to the limits of his own abilities. Towards these ends, I realize no junior college is within itself a panacea, however, to these goals I intend to apply my inexhaustible efforts."

"It should be evident that the Junior College, can and will be to Lake County Mental Health, what the Country-side Hospital will surely some day be to Lake County physical health."

Gilmore and his wife Jean have six children, 4 girls and two boys ages 18, 15, 12, 11, 10, and 6. The children are students at Antioch Community High School and Grass Lake School.

Dr. Roland A. Cooper, 51, of RFD Box 117, Antioch, is a candidate for the Lake County Junior College Board. Dr. Cooper is a dentist and has maintained an office in North Chicago for 14 years. He was born in Aledo, Illinois and attended high school at Alexis Community High School. His entire education was received in Illinois, including Knox College, and Loyola University, Chicago where he received his D.D.S. degree.

Dr. Cooper at one time served on the school board of Alexis Community High School, and was on the Board of Directors of the P. S. Ski Association. He lived in Lake Villa for 10 years and in rural Antioch for the last 3 years.

He is interested in farming and lives with his wife and two children on a farm in rural Antioch. His son, Rolly, is a freshman at Antioch High School; and Caryn is a first grader at Grass Lake School.

"I have always supported the junior college idea," Dr. Cooper said, "and I would like to represent the people of Lake County as a director of the junior college and get the college into operation as quickly and efficiently as possible."

"First the board must select a president," he said, "then the board members must work with the president in selecting a site and in developing a broad, well balanced curriculum that will satisfy the demands of the people of Lake County."

Paul H. Wiese, 34, a Lake Villa resident, is a candidate for the Lake County Junior College Board.

Mr. Wiese was born and educated in New England and received his B. S. degree from Central Connecticut College, with a major in history and a minor in guidance. He did graduate work at the University of Michigan in the fields of English and psychology and has been a

teacher for the past twelve years.

At present, Mr. Wiese is teaching English at Lake Villa Central School, where he has taught for the past five years. His teaching experience ranges from self-contained seventh grade to college level history and psychology.

Mr. Wiese remarked, "I feel that the creation of a Junior College here in our county is one of the most dynamic things that has happened here to education. The majority of candidates seem to agree as to the type of college that is needed . . . one that offers transferable credits, a dual education, I want to be that teacher."

courses."

He continued, "Realizing that the college will be serving young people which includes my past, present and future students, I have become a candidate. Knowing that the college will be serving people in all walks of life, I feel that the board of directors should represent all walks of life. I do not feel that it should be composed solely of educators, but should range from lawyers to farmer, to baker to teacher."

Homes in the Antioch village limits will be automatically entered in the contest, and will have the homes judged. Those outside the village limits may enter the contest and have their home judged by sending a postcard to the Antioch Moose with their name, address, phone number and directions as to the location of the home. The deadline for postcard mailing is December 20. Judging of the homes will take place on the evening of Dec. 22, starting at 8 p.m.

the Christmas gift a woman never forgets, a wonderful electric dishwasher

A wife likes pretty, personal gifts at Christmas. But she loves practical ones, too. And probably the most wanted practical gift of all is an electric dishwasher. Nothing else she can own saves her so many endless hours of drudgery. Come to think of it, how could a gift be more personal, or look prettier to her?

With just a flick of a switch a dishwasher washes, rinses, and dries . . . all automatically. Glasses, dishes, and flatware come out sparkling, without water spots or towel streaks. Everything is washed and rinsed in water hotter than hands . . . even gloved hands . . . can stand. Then it's dried in pure, clean, electrically heated air that's far more sanitary than any dish towel.

You can now get a portable dishwasher, if you like, that does every bit as good a job. Portables need no plumbing connections, and they can be permanently installed in a new kitchen later.

You'll be surprised how little it costs to give your wife the happiness that comes with a new electric dishwasher. See the built-in and portable models at your electric appliance dealer's now. And a Merry Christmas to you both.

Sequoits Lose A Tough One To Grayslake

Antioch 63—Grayslake 66. Upset by a hard fighting, hustling Grayslake team, the Antioch Sequoits lost their second conference game 66 to 63 at Grayslake on Saturday evening.

Plagued by several cold spells in each game, the Sequoits can't seem to get the clutch play they need to win. This has been the story in so many games the Sequoits have lost. Each game being lost by only a few points, when the clutch play could spell victory. As Knute Kockne once said, "There is such a fine line between a great season and a good season." This is the case so far with the Antioch Sequoits.

In the Grayslake game, the Sequoits lead most of the game and were enjoying an 8 point lead midway through the third quarter 45 to 37. At this point, several turnovers, missed free throws and missed layups hurt the Sequoits

as Grayslake scored 18 straight points. "It seemed unreal," stated coach Andrews, "as we were shooting layups and Grayslake was shooting 25 and 30 footers, yet they were the team putting on the rally."

In the final minutes of the game, Antioch put on a fighting finish. With only 32 seconds remaining, Steve Owens sank two free throws to put the score 65-63 in favor of Grayslake. The Sequoits had two opportunities to tie the game but both shots were off target and with 2 seconds left, Rich. of Grayslake sank a free throw to "ice" the game for Grayslake.

This weekend, the Sequoits play host to the Grant Bulldogs. Grant is one of three teams leading the conference with a 3-0 record. The conference leading scorer, Lee Oler, also will be here. The game is always a real dogfight as these two teams are traditional rivals.

Would Be Thief Tries To Snitch Christmas Tree

Norma and Dick Motley are selling Christmas trees, as usual, at the Roller Rink. Last Saturday, two men spent more than an hour looking at trees. One kept Dick Motley occupied; while the other moved a tree from the sidewalk display.

The Motleys missed this particularly beautiful spruce, looked around and saw the tree standing against the building some distance away from their tree display. They decided to keep a watchful eye on that tree, and sure enough, in the evening, the man approached the tree; picked it up and started to carry it off.

Dick ran over to the Antioch Police Dept., and wife Norma started running after the tree thief. She caught up with him, and she attempted to hold him there until the police arrived.

There was a struggle and he stumbled and dropped the tree. He cursed her, got up on his feet and ran off before the police arrived.

One wonders what is in the back of this would-be Christmas Tree Snitcher's mind at this most holy of all holidays. Thou Shalt Not Steal is one of the major teachings of Christianity—and we wonder what kind of joy this man would feel with a stolen Christmas tree in his home.

MOOSE TOPICS

By Lillian Birdsall

Even though there is a remodeling program in effect at the Antioch Moose Home, this did not stop the members and their friends from attending the Turkey dinner sponsored by Bea Phillips and her Child Care committee Saturday evening, Dec. 2. Chiefs Mike Phillips and Scotty Birdsall were kept busy in the kitchen dishing out the more than 100 dinners that were served, and Gerry Stoxen who washed dishes, never took his hands out of the water. The dinner was a complete success and everyone said they had just too much to eat. El Sheridan and his band supplied following the dinner and the majority of the members stayed until the closing of the doors.

The Legionnaires of the Antioch Moose added 5 more new members to the list following the enrollment held at the Racine Moose Home Dec. 3. The Anniversary night is also on this same evening which will make it very interesting.

The Children's Christmas party will be held on Sunday afternoon, Dec. 17, from 2 to 4 p.m. Santa Claus will be present to pass out stockings filled with goodies for the children who attend. Refreshments, games and movies have been planned.

Professional Nurses At Downey Receive Salary Increase

The Veterans Administration Central Office, Washington, D.C., has authorized Downey Veterans Administration Hospital to increase the annual starting salary for professional nurses from \$5,867 to \$6,461 per year for those with two years of hospital or similar experience or those with a baccalaureate degree in nursing from an NLN approved program, the starting salary increased from \$6,730 to \$6,954 per year.

Nurses' salaries within the Veterans Administration are established by law and are based upon the education and experience of the nurse. In some major metropolitan areas in the country, however where salaries in community hospitals are generally higher than elsewhere in the nation, permission may be given to the local hospital to waive the basic starting salary and to substitute one which is more competitive in the local labor market.

Full and part time positions in the Nursing Service are open at Downey Veterans Administration Hospital. Veterans of all conflicts are given care in this 2400 bed Federal Facility. Assignments in psychiatric nursing, as well as in medical, surgical, geriatrics, and pulmonary disease nursing are available. What Quality Beef Does A&P Sell?

That's a fair question. But not an easy one to answer because we have our own quality standards, different from any other meat merchant.

These standards don't fit exactly the familiar terms you know for grades of meat. As an example, did you know that some beef, graded U.S. Choice, just doesn't meet our "Super-Right" specifications? It's true! You see... we don't buy by grade. We use our own high standards to bring you the best values.

That doesn't mean we don't approve of such grading—not at all. It just means we're very fussy about the beef we label "Super-Right." It stands to reason we have to be or A&P wouldn't be America's number one meat merchant.

Are "Super-Right" Meats a good reason for shopping A&P?

They're one of many!
